DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, 12 and 13, drawn to an apparatus, classified in class 83, subclass 401.
 - II. Claim 11, drawn to a process, classified in class 83, subclass 35.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions from group I and group II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process, as claimed, can be practiced by another and materially different apparatus due to the fact that the process claims a "first and second cutting step". Claims 1 and 12 do not claim any knives just a stroke device for moving them.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
